

# Signs You're Wasting

*Time*  
&  
Losing  
*Students*

## Without Automation

by Serenade your studio

# Are you juggling too much and...

1. You lose track of trial lessons and forget to follow up.
2. You're stuck manually following up with inquiries —and half of them ghost you.
3. You forget to remind parents about upcoming lessons, recitals, or payments.
4. You've got a waitlist... but no system to nurture them.
5. You rely on random word-of-mouth instead of predictable marketing.
6. You're spending hours creating marketing content instead of teaching.
7. You rely on spreadsheets or sticky notes to track leads and student communications.

# Having Automations that *Sound & Feel* like you operating in the background is **Life Changing!**

I know because I have a multi-teacher studio. When I moved across the country I had to find another way to manage, sustain and grow my studio.

I now spend 1-2 hours a week  
managing my studio!

AUTOMATIONS ARE

# For...

one

## Individual Teacher

- You lose students by not responding to them quick enough and love having your billing automated.

two

## Boutique Studio

- You have a few teachers and feel like you're losing your mind and need systems in place so you can survive and live the life you want.

three

## Group Teacher Studio

- You realize that more students means more admin time and need an efficient way to communicate with students and streamline systems.

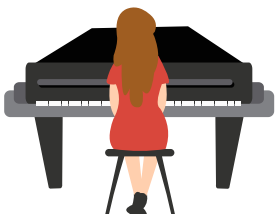

four

## Multi-Teacher Studio

- You have some systems in place yet still need some support and proven marketing strategies to keep the studio full.

five

## Want to Start a Multi-Teacher Studio

- You want to start a boutique or multi-teacher but don't know where to start.
