Lead students to be bright examiners in Theory and Performance

Piano Adventures Exams are built upon the student and teacher as a **musical team**. Together, they “examine” essential music principles to build and assess **Theory skills**. Together, they choose, learn, and record **3 Performance pieces** to show the student’s personal artistry.

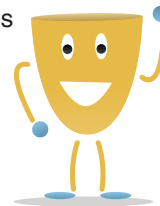

Online Theory Exams

In lessons, the student and teacher “examine” the **language of theory**: notes, intervals, rhythm, chords, form, creativity, and ear-training. The Theory Exams are imaginative and an adventurous way to assess these skills.

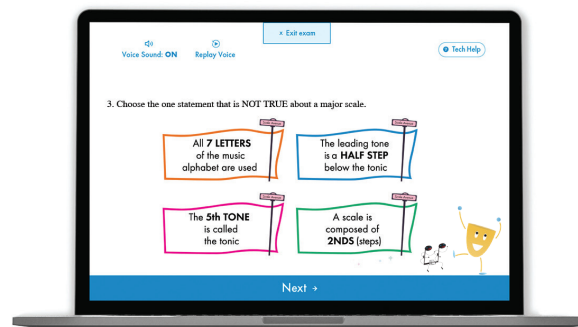

Trophy, the Exam Mascot

Trophy is the fun character who reminds us that learning leads to “**trophy moments**.” Trophy guides students through the Theory Exam with flips, somersaults, and more!
