

Octave

- ✓ An **OCTAVE** is a distance of 8 notes. (“Oct” means 8.)
- ✓ Bass C to Middle C is an octave.
- ✓ D to the next D (up or down) is an octave, and so on.
- ✓ Using your “pointer fingers,” play some octaves on the piano.

Oscar Octopus

Moderately

mf Os - car live Oc - to - pus, won't you please come swim with us?
 You live un - der - sea, so I bet you'd out - swim me!

THIS IS COOL!

Octopuses are very smart. They can swim through tricky underwater mazes. They can even open jars! “Oct” is Greek for “eight.” (An octopus has eight arms.) A stop sign is an octagon...guess how many sides it has.
